

Lathom South Parish Council are very proud of the work we do to maintain Jacobs Wood and Swells Wood and we'd like to get more people to have a say in what we're doing and suggest any changes you'd like to see.

We would therefore like to invite everyone to join our Friends of Jacobs Wood Facebook group. Here you will be able to keep up with all the events taking place within the woods and maybe even get involved in some of the working parties to keep these woods looking beautiful.

We meet up 3 times per year in Spring/Summer/Autumn to do light work such as remove tree protectors that are no longer necessary or have a blitz on the Himalayan Balsam which is running a little rampant! It's also a great way to meet other users of the woods and to let everyone know of any problems such as fallen trees blocking footpaths.

Please join our facebook group by scanning the QR code below with your smartphone camera app.
